

Smart business owners across the globe are realising the power and the value in having a mobile app for their business. AppsolutionUK will show you how to harness the power of the smart phones that most of your customers (and prospective customers) are carrying with them ALL THE TIME! With your own app for iPhone, iPad, Blackberry, Nokia, Samsung, Android or any other smart phone in the industry, you can reach out and touch these people. Benefits include:

- increasing your brand visibility;
- customer loyalty;
- promotional ability;
- overall interaction with your customers.

AppsolutionUK have a team of professionals that will design and build your App, in a way that will engage, inform, and impress your customers. The “xxxxxx” App can be up and live in a few short days, ready to work as your mobile marketing arm 24/7!

Not only do we provide a consultation service to design and build a custom made app tailored to meet your business needs, but AppsolutionUK provides you with a “manager” that will allow you to control your applications and call the shots. AppsolutionUK’s “manager”, GoMobile Solutions, will give you access via a very simple, user-friendly global interface to a multitude of services and data. In addition, a support team is available to you 24/7!

AppsolutionUK is providing a brand new opportunity that will bring added value to your business. You are at the cutting edge of mobile marketing so now’s the time to take advantage - take the next step and join the App revolution wave!

Call us today for a consultation on how to get your business into the pocket of consumers!
